

PROJECT HOTEL SON VIDA
SPAIN

Cross-vaulted Pergola

Project Hotel Son Vida, Spain

Curved photovoltaic glass canopy with :

- Sunergy glass filtering part of the solar radiation
- photovoltaic modules

Placement and connection of pv cells is optimised for a maximum energy production all over the year.

The pergola can be connected to the grid or be a stand-alone facility. Offers different options :

- LED lighting
- electrical charging station for mobiles devices
- bar and electrical equipment
